- I am a highly-enthusiastic published roboticist with a knack for technology, research, and everything robotics! I am in the look out for challenges where I can utilize my diverse skill set in Mechatronics & Mechanical Engineering and tackle relevant projects
- I took part in a handfull of research ventures where I led the research effort and performed the required experimentation in the fields of Nonlinear Dynamics, Control, Chemotheraputic Drug Delivery Systems, Tribology, Parameter Identification, Modeling, Estimation Theory, & Optimization.

Education

MSc 2015→2017
Mechanical Engineering, American University of Sharjah, UAE
Thesis: Modeling, Control, Navigation, & Experimental Verification for an Underactuated Autonomous Underwater Vehicle *GPA: 3.78*

BSc 2011→2015
Mechanical Engineering, American University of Sharjah, UAE
Cum Laude Honors.

Experience

Employment

American University of Sharjah
Jan 2016→Present
Sharjah, UAE

Teaching/Research Assistant.
- Instructing & grading undergraduate+graduate courses, recitations & laboratories.
- Preparing student handouts+tutorials and teaching material.
- Management of the student database online system.

Khatib & Alami
Sep→Dec 2015
Abu Dhabi, UAE

Trainee Inspection Engineer.
- Was resposible for daily inspection works involving HVAC chilled water system, water supply/drainage, and firefighting installations.
- Processed contractor submittals, inspection reports, and information requests.

Al Bayan Engineering Consultants
Aug→Sep 2015
Abu Dhabi, UAE

Engineering Intern.
- Introduced to the process through which construction works happen.
- Gained field experience with HVAC system installation and design.

Teaching

Courses & Labs
2017 → 2018

– Statics & Dynamics
– Dynamic & Control Systems
– Real-time Robotics
– Fluid Mechanics
– Finite Element Analysis
– Simulation & Modeling
– Thermodynamics
– Thermo-fluids Laboratory

Extracurricular

GSA Board Member
2016→2017
- Representing the graduate student body on a college-level
- Organizating workshops & events for the graduate student body

Graduate Student
2015→2017
- Helping with the supervision of undergraduate capstone design projects
- Helping with the organization the 10^{th} ISMA conference held in AUS (ISMA '15)
- Demonstrating personal exemplery projects to aid undergraduate students

Computing

I am an active developer and maintainer of several scientific computing packages. See my github profile (http://github.com/ali94wadi) for details.

Skills

- Expert in MATLAB/Simulink. Good in the Python Language as well as with LabVIEW. Experience writing C, XML.
- Experience with a variety of tools and languages, including bash, LaTeX, HTML, Git, Linux, virtual machines, & the Robos Operating System.
- Experience with Hydrodynamic & Finite Element Analysis modelling software, including the ANSYS; COMSOL.
- Experience with 3D modeling software, including AutoCAD, Inventor.
- Experience with Multibody Dynamics modeling software, including ADAMS, Gazebo, and V-REP.

Major Software Projects

AUV-ROS-Package 2017→Present
A stack of packages to provide funcitonality for a RaspberryPi-powered Autonomous Underwater Vehicle. Source code to be published in Matlab and Python post thesis publishing.

V-REP/Gazebo-AUV 2017→
A MATLAB-integrated ROS package to provide a realistic hydrodynamic environment simulation for the testing purposes of AUV-centered algorithms.

Publications

2017

[1] A. Wadi *et al.* *Identification of the Uncertainty Structure to Estimate the Acoustic Release of Chemotherapeutics from Polymeric Micelles.* IEEE Transactions on NanoBioscience, DOI: 10.1109/TNB.2017.2736021

[2] A. Wadi *et al.* *Dynamic Analysis of the Tilted Furuta Pendulum.* MATEC Web of Conferences, Denmark, 14 April 2017 (paper no. 200). DOI: https://doi.org/10.1051/matecconf/201710402011

Forthcoming

[3] A. Wadi *et al.* *Bias-Robust Estimation of the Acoustic Release of Chemotherapeutics from Liposomes.* IEEE Transactions on NanoBioscience, In preperation October 2017

[4] A. Wadi *et al.* *A Novel Disturbance-Robust Adaptive Trajectory Tracking controller for a Class of Underactuated Underwater Vehicles.* Simulation Modelling Practice and Theory, In preperation November 2017

[5] A. Wadi *et al.* *Modeling and Parameter Identification for an Underactuated Underwater Vehicle.* Inernational Symposium for Mechatronics and its Applications, In preperation December 2017
